

“Being in complete compliance is no easy task. Intercare’s detailed analysis and quarterly plan reviews ensure our company is in full compliance with all fiduciary requirements. Without the information and assistance Intercare provides, I don't know how we’d manage to stay on top of it all .”

Midori Cronky

Human Resources Manager
Hot Dog on a Stick

Hot Dog on a Stick offers a positive and unique opportunity for anyone who strives for quality, enjoys being part of a customer service team, and likes to have fun. They have come a long way from the first beachfront stand in 1946 and the first mall unit in Salt Lake City in 1973. However, there are two primary things that have not changed in all these years; great food and the best employees ever found!

Intercare’s Due Diligence Process

Without a sound investment due diligence process, plan fiduciaries may be personally liable for poor employee investment returns. Intercare Insurance Solutions helps plan sponsors address these issues, from establishing the Investment Policy Statement to the ongoing selection, monitoring and recommendations of the plan’s investments.

Our analysis is fueled by the *Scorecard*SM System, which includes the ranking of a plan’s funds in approximately 14 asset classes. The scoring system is built around pass/fail criteria, on a scale of 0 to 10 (with 10 being the best).

What makes our process leading edge is that it employs a complete approach that takes into account risk adjusted return characteristics, style analysis, peer group rankings and various qualitative factors. This is very similar to what the largest and most advanced investment institutions in the world utilize, yet has been simplified so that it may be used for all of our clients, regardless of size or sophistication.
